

Title –Paper Template for Asia-Pacific Laser Symposium

Title Bolded, 14 Point Type, Centered

Author Name ¹, Author Name ², Author Name ³

¹affiliation, full address, 9 point type, centered

²affiliation, ³affiliation

E-mail address of corresponding author, 9 pt, centered

Abstract: The abstract should be an explicit summary of the paper. It should contain relevant keywords. The maximum length is 35 words. Please follow the instructions when preparing a paper.

1. Introduction

A template is a set of styles and page layout settings that determine the appearance of a document. This template matches the printer settings that will be used for the proceeding. Since there is no typesetting or copy-editing for summaries, the use of this style guide is critical to providing a consistent appearance.

We use the same template as that is use in Advanced Lasers and Photon Sources Conference.

2. Title section

Paper size should be 21 cm x 29.7 cm A4 size. Margins should be set for a 3.5 cm top, a 2.5 cm bottom, and a 2cm left and right. The paper should not exceed the one-page limit. The font should be Times New Roman. The title should be in 14 pt., bold. Authors' names should appear as first name, and/or middle name followed by surname. Please spell out and do not use initials to first name.

Affiliations should follow the format: division, organization, address. Abbreviations should not be used in the summary. If multiple authors have the same affiliation, one listing of the affiliation should be used, preceded by the full list of those authors on the line above.

3. Abstract

Begin the section with the word “**Abstract:**” in bold, Italic font, 9 pt. size. The abstract is rigidously limited to 35 words.

3. Main text

Your paper should be set in a two-column format. The font size should be 10 pt. The first line of the first paragraph of a section or subsection should start flush left.

The first line of subsequent paragraphs within the section or subsection should be indented 0.5 cm (0.2 in.).

3.1 Second level heading

Flush left. Only the first letter in the heading is capitalized, except for proper names, elements, and abbreviations. The heading should be in 10 pt., Times New Roman font.

3.2 Tables and Figures

Tables and Figures should be placed as close as possible to where they are mentioned in the text. Tables should be centered in a column and numbered consecutively. One line table headings should be centered above the table. Several line headings should have margins that match the table width.

Fig. 1. Experimental setup.

Acknowledgment

Acknowledgment may be placed in the subsequent section, if necessary.

References

For journal articles, authors are listed first, followed by the article's full title in quotes, the journal's title abbreviation, the volume number in bold, inclusive page numbers, and the year in parentheses. Journal titles are required.
